

## We Are Sailing Together Through the Sea of Knowledge and Languages

From September 1, 2017 to August 31, 2019, a project called "We Are Sailing Together Through the Sea of Knowledge and Languages", which is co-financed by the European Union, is taking place at the Villa Luna kindergarten. The project focuses on the personal development of the teachers, on high quality education of children, on facilitating the transition of children from kindergarten to primary school, on supporting extracurricular activities, and on cooperating with the parents of the children. During this time, there will be many exciting events in the kindergarten, for children and teachers as well as for parents. We believe that this project will bring us many new and enjoyable experiences.
